

# BioConnexx Inc.

The Full Service Supplier of Fluid Handling Components & Systems for the Life Science Industries

## Tested, Patented & Proven...

When You Select BioConnexx, You're Selecting Tested, Patented & Proven Products.

### BioBarb

Provides a cleaner, purer transfer of medium, full drainage with less turbulence. Fully compatible, matching tubing ID precisely.

### Bio Clamp

The alternative to traditional stainless steel clamps, the Bio Clamp is lightweight, tough and resilient.

### Bio Y

Provides a cleaner, purer transfer of medium. Over-sized barb adds compression between the tube and fitting, providing a secure connection.

### End Caps

The only non-metallic cap with a built-in tab for quick removal, which reduces potential damage to sanitary flanges.

### Threaded Adapters

Permit reliable transitions to sanitary applications.

### Sanitary Flanged Sight Tubes and Pipe Spool Pieces

Available in custom lengths to suit your unique applications.

### Valves

Non-metallic valves with standard sanitary flange ports. Angle & Globe Valves, Manual Ball Valves, Manual Zero Dead Leg, Manual Diaphragm.

### Non-Metallic Rigid Piping Components

Available in custom sizes to suit your unique applications.

### Bio Valve™

Straight forward designed tube valve/clamp.

### BioSeal™ Caps and Closures

The BioSeal™ Caps and Closures provide a cleaner, purer transfer of medium.
